

## Product Designer

We are looking for a Product Designer to work on the various modules of Zuper platform to deliver an ultimate user experience. To be successful in this role, you should have an eye for great design and focus on providing a superior UI functionality.

Location: Chennai

### **Role Description**

- Coming up with design specifications for our web and mobile applications
- Working around product use cases, workflows, and features
- Developing a deep understanding of how the product features are used by the customers
- Finding opportunities for improving customer experience and propose new features/solutions and validate assumptions through research
- Ability to quickly explore and derive approaches early in the design phase through sketches, flows, wireframes, prototypes, enabling better estimation of the projects
- Working closely with the product and development teams
- Following design guidelines, best practices, and standards

### **Required Skills**

- 2-5 years of experience with product designing, preferably SaaS based products
- Excellent design and BA skills with a strong visual portfolio
- Proficiency in design tools like Sketch

- Minimalistic design approach with sensitivity to user behavior
- Staying up to date with latest UI trends, techniques, and technologies

### **Perks & Benefits**

- Health Insurance & Dental Benefits
- Gym & Wellness Programs
- Team Retreat, Company Parties
- Stocked kitchen with Snacks, Beverages
