

Scale Your Service Business with An On-Demand Workforce Through the Zuper Field Nation Integration

The Zuper Field Nation integration enables a seamless field services management experience for companies employing an on-demand workforce, making it easier to find qualified workers, manage projects, and collect payments.

Field Nation is a technology platform that connects businesses with a nationwide network of skilled independent contractors to get on-site work done.

"Zuper has helped us take our business to the next level. The customized workflows has given us greater efficiency and reporting provides insights into our operations and allows us to make more informed decisions."

Myles Osswald
CFO, Pro-Vigil

Advantages of a blended workforce for field service organizations include:

Increased flexibility

With a flexible workforce, you can quickly scale up or down to meet changing business demands.

Improved efficiency

With the right mix of W2, part-time, and 1099 contractors, you can optimize job assignments to get the right technician to the right job at the right time.

Cost savings

A hybrid workforce can be a more cost-effective solution that helps you avoid the overhead costs associated with a full-time workforce for seasonal jobs and certain knowledge-based activities.

Why the Zuper Field Nation Integration?

The Zuper Field Nation integration ensures you get the right technician to the right job at the right time and enables businesses to quickly identify and resolve any issues that may arise, and are available when you need them most.

With the Zuper Field Nation integration, services businesses can keep track of their work order details, progress status, updated job schedules, and enable all field technicians including on-demand contractors, to better manage jobs and deliver a cohesive service experience.

Zuper's pre-filled work order fields auto-syncs with Field Nation forms, which means your workers will always have the most up-to-date information.

Seamlessly deploying and managing a hybrid workforce results in boosted revenue, faster service, and increased operational scalability for your field service business.

You also get access to Field Nation templates to create a work order effortlessly.

The Zuper integration helps your on-demand workforce avoid service delays and facilitates quick service delivery for customers through use of the Field Nation mobile app.
